

ARNASON

Industries Ltd.

GENERAL CONTRACTORS AND ENGINEERS

- Water supply systems
- Sewage collection and disposal systems
- Heavy equipment rentals

A *ARNASON Industries Ltd.*

has over 30 years of professional experience on construction projects throughout Manitoba, Saskatchewan, Northern Ontario, Alberta and the Northwest Territories.

Our Company has an excellent reputation working with consulting engineers. We specialize in providing clients with a comprehensive general contracting and engineering service whether working with consultants or providing our own engineers. This reduces costs, eliminates problems and improves quality on your water supply or sewage collection and disposal systems.

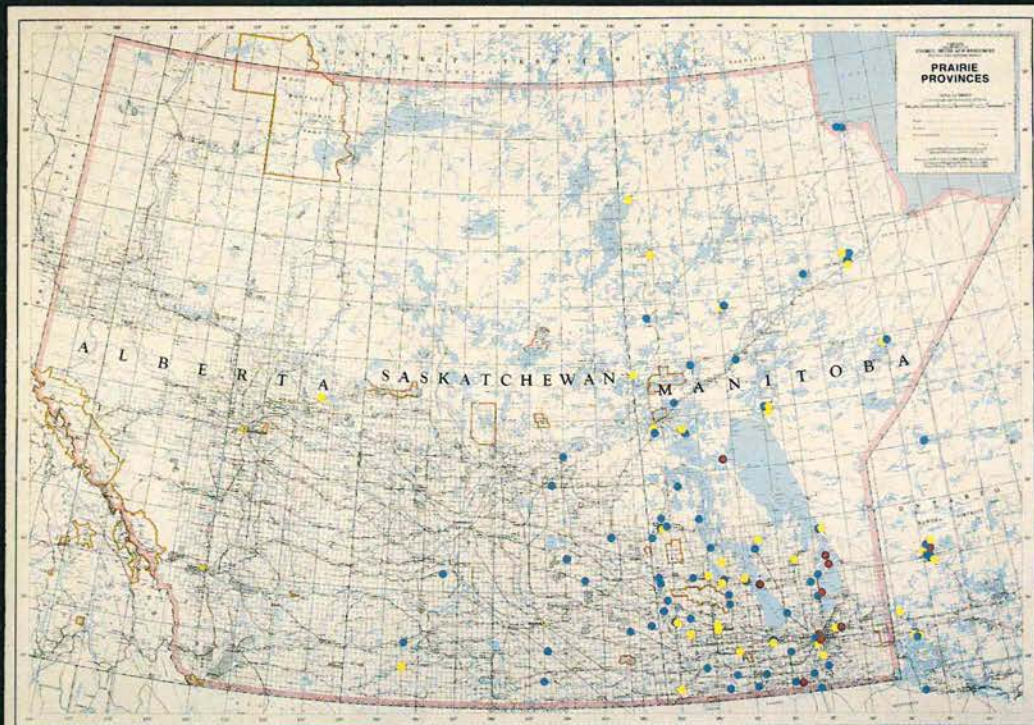

Here are the benefits provided for clients of Arnason Industries Ltd.:

- Arnason Industries is fully bonded and insured to guarantee its financial capabilities.
- Equipment, management resources, maintenance and support systems are provided as required.
- Local equipment, suppliers and labour are involved on each project.
- A complete training program is offered for management and labour.
- Reliable follow-up service is provided to guarantee satisfaction.
